MEMORANDUM FOR BUREAU PROCUREMENT CHIEFS

FROM: William N. Taylor II
Deputy Assistant Attorney General
for Policy, Management, and Procurement
Senior Procurement Executive

SUBJECT: Federal Acquisition Regulation Class Deviation Regarding Revoked Executive Order 14057, *Catalyzing Clean Energy Industries and Jobs through Federal Sustainability*, under Executive Order 14148 and Implementing Executive Order 14208, *Ending Procurement and Forced Use of Paper Straws*

1. **PURPOSE**

This FAR class deviation is issued under the authority of Federal Acquisition Regulation (FAR) 1.404 authorizing agencies to issue a class deviation to implement the revocation of Executive Order (E.O.) 14057, *Catalyzing Clean Energy Industries and Jobs through Federal Sustainability* under Section 2 of E.O. 14148, *Initial Rescissions of Harmful Executive Orders and Actions*, issued on January 20, 2025. The deviation also addresses the requirements under E.O. 14208, *Ending Procurement and Forced Use of Paper Straws*.

To comply with the revocation of E.O. 14057 and requirements of new E.O. 14208, the Civilian Agency Acquisition Council (CAAC) Chair authorized a FAR deviation via CAAC Letter 2025-02, issued on February 15, 2025, and supplemented on February 18, 2025.

2. **BACKGROUND**

On January 20, 2025, the President issued E.O. 14148 which included the revocation of E.O. 14057 under Section 2. Several FAR provisions promulgated to enforce E.O. 14057 are no longer consistent with the direction of the President and therefore must be rescinded or revised in order to comply with E.O. 14148.

Additionally, Section 2 of E.O. 14208, *Ending Procurement and Forced Use of Paper Straws*, of February 10, 2025, directs agencies to take appropriate action to eliminate policies designed to disfavor plastic straws. In advancement of Section 2 of E.O. 14208, the removal of requirements related to E.O. 14057 eliminates all non-statutory sustainability requirements or preferences in purchases of food service wares, including paper straws. In addition to removing requirements related to E.O. 14057, the deviated FAR language in Attachment 1

also reflects recent updates to Code of Federal Regulation citations for the U.S. Department of Agriculture's BioPreferred® Program, a statutory purchasing preference program.

3. AUTHORITY

This class deviation is issued under the authority of FAR 1.404.

4. DEVIATION

See Attachment 1 for the changes to the FAR text as revised by this class deviation.

5. EFFECTIVE DATE AND EXPIRATION

This deviation is effective immediately and remains in effect until the FAR is amended or the deviation is otherwise rescinded.

6. SCOPE AND APPLICABILITY

This class deviation applies to all Department of Justice (DOJ) solicitations and contracts, as appropriate. The deviated FAR language in Attachment 1 must be used in lieu of the existing FAR text when applicable to the solicitation or contract.

An Acquisition Policy Notice will be issued by the Department's Office of Acquisition Management with this FAR Deviation to provide operational/implementation guidance to the DOJ acquisition workforce.

7. ADDITIONAL INFORMATION

If you have questions, please contact DOJAcquisitionPolicy@usdoj.gov.

8. ATTACHMENTS

Attachment 1 – Deviated FAR Text, Implementation of Executive Order 14208 and Revocation of Executive Order 14057

**CLASS DEVIATION
FINDINGS AND DETERMINATION
IMPLEMENTATION OF EXECUTIVE ORDER 14208
AND REVOCATION OF EXECUTIVE ORDER 14057**

Findings

1. Executive Order (E.O.) 14148, *Initial Recissions of Harmful Executive Orders and Actions*, issued on January 20, 2025, revoked E.O. 14057, *Catalyzing Clean Energy Industries and Jobs through Federal Sustainability*, that had been incorporated throughout the Federal Acquisition Regulation, primarily in FAR parts 2, 11, 18, 23, and 37 and associated provisions and clauses. In order to ensure that awards issued by the Department of Justice (DOJ) are consistent with the direction of the President, use of the deviated FAR language in Attachment 1 is necessary for compliance with E.O. 14148 until such time as the FAR can be updated.
2. This deviation also addresses compliance with E.O. 14208, by eliminating all non-statutory sustainability requirements or preferences in purchases of food service wares, including paper straws.
3. As a result of the changes made under E.O. 14148 in relation to E.O. 14057 as well as under E.O. 14208, the Civilian Agency Acquisition Council (CAAC) Chair issued a CAAC Letter on February 15, 2025, authorizing agencies to issue class deviations implementing these provisions until the FAR can be amended to address the executive orders. CAAC Letter 2025-02 was supplemented on February 18, 2025, with clarifying information. The deviated FAR language at Attachment 1 utilizes the updated FAR language from CAAC Letter 2025-02 Supplement 1.

Determination

It is hereby determined that a class deviation is appropriate to implement E.O. 14208 and the revocation of E.O. 14057 under E.O. 14148. This class deviation will be effective as stated and will remain in effect until the FAR is amended or the deviation is otherwise rescinded.

23.103 Policy.

(a) Agencies shall procure sustainable products and services (as defined in 2.101) to the maximum extent practicable.

(1) Procuring sustainable products and services is considered practicable, unless the agency cannot acquire products or services—

(i) Competitively within a reasonable performance schedule;

(ii) That meet reasonable performance requirements; or

(iii) At a reasonable price (see 23.103(a)(2)).

(2) When considering whether the price of a sustainable product is reasonable, agencies should consider whether the product is cost-effective over the life of the product. For

ENERGY STAR® or Federal Energy Management Program (FEMP)-designated products, a price is reasonable if it is cost-effective over the life of the product taking energy cost savings into account (42 U.S.C. 8259b(b)(2)). Life-cycle cost savings tools for energy-efficient products are available at https://www.energystar.gov/buildings/save_energy_commercial_buildings/ways_save/energy_efficient_products and <https://www.nrel.gov/analysis/tech-lcoe.html>.

~~(b) When procuring sustainable products and services, agencies shall~~

~~—(1) Ensure compliance with applicable statutory purchasing program requirements (see 23.107); and~~

~~—(2) Prioritize multi-attribute sustainable products and services (see 23.104(c)(2)).~~

~~—(e) Regarding products under contract actions for services or construction, the contractor is required to provide products that meet the definition of sustainable products and services at 2.101, if the products are—~~

~~(1) Delivered to the Government;~~

~~(2) Furnished by the contractor for use by the Government;~~

~~(3) Incorporated into the construction of a public building or public work; or~~

~~(4) Acquired by the contractor for use in performing services under a Government contract where the cost of the products is a direct cost to a Government contract (versus costs which are normally applied to a contractor's general and administrative expenses or indirect costs).~~

23.104 General procedures.

(a) *Maximum extent practicable.* If the requiring activity submits a written justification addressing the reasons described in 23.103(a)(1), the contracting officer may consider it not practicable to procure sustainable products or services. A written justification may be for a specific product or service or at the line item or contract level. The contracting officer shall maintain the written justification in the contract file.

(b) *Identification.*

(1) Except as provided in paragraph (b)(2) of this section, the contracting officer shall ensure the solicitation and contract identifies—

(i) The sustainable products and services, including the purchasing program and type of product or service, that are applicable to the acquisition, as identified by the requiring activity; and

(ii) Any products and services that are not subject to the requirements of this subpart and the clause at 52.223-23, Sustainable Products and Services, based on the written justification under paragraph (a) of this section **[or an exception at 23.105]**, ~~an exception at 23.105, or an exemption at 23.106.~~

(2) The requirement in paragraph (b)(1) of this section does not apply if the justification **[or exception]**, ~~exception, or exemption~~ covers the entirety of the contract action requirements.

(c) *Prioritization.* Agencies shall ~~prioritize sustainable products and services as follows:~~

~~——(1) Procure~~**[procure]** products and services that meet applicable statutory purchasing program requirements (see 23.107). When both an EPA-designated item (see 23.107-1) and a biobased product in a USDA-designated product category (see 23.107-2) could be used for the same purposes, and there is not an EPA-designated item that is also a biobased product in a USDA-designated product category that meets the agency's needs, procure the EPA-designated item.

~~——(2) Consistent with other statutory procurement requirements, prioritize multi-attribute sustainable products and services, which are those that meet applicable statutory purchasing program requirements (see 23.107) and one or more required EPA purchasing programs (see 23.108).~~

~~——(3) If no statutory purchasing program requirements apply, procure sustainable products and services that meet required EPA purchasing program requirements (see 23.108).~~

(d) *Resource.* The Green Procurement Compilation (GPC) available at <https://sftool.gov/greenprocurement> provides a comprehensive list of sustainable products and services and other related sustainable acquisition guidance. ~~In addition to the resources identified for each purchasing program listed in~~

~~23.107 and 23.108, agencies~~**[Agencies]** should consult the GPC when determining which **[statutory]** purchasing programs apply to a specific product or service.

23.105 Exceptions.

The following are excepted from the requirement to procure sustainable products and services: * * *

(d) Biobased products to be used in military equipment (products or systems designed or procured for combat or combat-related missions), spacecraft systems, or launch support equipment are not subject to the requirements in 23.107-2 (7 CFR ~~3201.3(e)~~**[7 CFR part 4270.3(a)(5)]**).

23.106 ~~[Reserved]~~Exemptions.

~~—(b) The head of an agency may exempt the following:~~

~~——(1) Particular agency activities and related personnel, resources, and facilities when it is in the interest of national security, to protect intelligence sources and methods from unauthorized disclosure, or where necessary to protect undercover law enforcement operations from unauthorized disclosure. The agency shall notify the Chair of the Council on Environmental Quality (CEQ) in writing within 30 days of issuance of the exemption under this paragraph (b)(1).~~

~~——(2) On an individual or class basis, any manned and unmanned vehicle, vessel, aircraft, or non-road equipment that is used in combat support, combat service support, military tactical or relief operations, or training for such operations or spaceflight vehicles, including associated ground support equipment.~~

~~—(c) Contracting officers are encouraged, but not required, to procure sustainable products and services if the head of the agency determines the supplies or services are to be used to facilitate defense against or recovery from cyber, nuclear, biological, chemical, or radiological attack; to facilitate provision of international disaster assistance; or to support response to an emergency or major disaster.~~

~~—(d) The head of the agency may submit to the President, through the Chair of CEO, a request for an exemption of an agency activity, and related personnel, resources, and facilities from this subpart for any reason not otherwise addressed in this section.~~
